Dear Mr. Crutchfield:

NUCLEAR POWER - ORGANIZATION AND SENIOR MANAGEMENT CHANGES

TVA is making changes in its Nuclear Power program as part of ongoing efforts to improve the organization's focus on single-point accountability and increase our emphasis on the project management approach.

This is to inform you of the following changes in TVA's Nuclear Power organization and senior management:

- o R. A. Pedde, Site Director, Watts Bar Nuclear Plant, will report directly to the Senior Vice President. He will continue to direct Watts Bar construction and the Bellefonte site. The overall Watts Bar organization is currently being evaluated as a project to improve accountability and to find ways to facilitate its successful completion.
- o The Sequoyah modifications organization will be transferred to the Sequoyah site organization and will report directly to the Site Director.
- o The Browns Ferry Nuclear Plant (BFN) modifications organization will be transferred to the BFN site organization where it will be under a newly created organization headed by Henry Weber who has been selected to fill the new position of Engineering and Modifications Restart Manager at BFN. Mr. Weber reported to BFN March 27, 1989. He will report to the BFN Site Director and have responsibility for the site engineering and modifications organizations. Both the engineering and modifications organizations will be placed under his administrative and functional direction until the completion of the restart program. The Nuclear Engineering organization will continue to be responsible for technical oversight and control of the BFN engineering project, supplying engineering manpower, and ensuring engineering integrity.
- o Following the conclusion of transfer of responsibilities to O. J. Zeringue as BFN Site Director, C. C. Mason has reported to Chattanooga to become Manager, Maintenance and Operations Support, within the Nuclear Power Production organization. Mr. Mason will oversee corporate maintenance which is being transferred from the Nuclear

Technical Director's organization. He will also be responsible for coordinating and providing technical standards, support, and consistency for modification and operating support functions. He will report to J. R. Bynum, Vice President, Nuclear Power Production.

- o R. F. Rogers, III, has been named to head the newly established Project Management organization. His duties will focus on institutionalizing the project management approach throughout Nuclear Power. Mr. Rogers will be responsible for ensuring execution of regulatory-related projects such as the TMI action items and other multi-site projects. He will work with the sites to develop Integrated Living Schedules with particular emphasis on licensing commitments. Mr. Rogers will report to C. H. Fox, Jr., Vice President and Nuclear Technical Director.
- o W. R. Brown, Jr., who has been serving as Vice President, Nuclear Construction, has assumed the position of Manager of Labor Relations in TVA's Corporate Human Resources' organization effective April 3, 1989.
- o The Nuclear Fuels organization will report to C. H. Fox, Jr., Vice President and Nuclear Technical Director, effective in April 1989. This change in reporting relationships will improve top-level management involvement in fuels activities and provide top management oversight of the group in Chattanooga where it is located.

This information is forwarded to you in accordance with the Safety Evaluation Report on TVA's Revised Corporate Nuclear Performance Plan dated July 1987.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

O. B. Kingsley, Jr.
Senior Vice President
Nuclear Power
